

American Cyber Security Management (ACSM) offers ISO/IEC 27001:2022 training and certification using two options: 100% Self-Paced (On-Demand); and Self-Paced enhanced with a Live, certified and experienced trainer, spreading the 40 hours of training over 8 weeks, so you have just 5 hours of training per week. Either way it is flexible and comprehensive. Information security threats and attacks continue to increase and morph. Protecting our data has become critical and many companies are turning to and requiring information security and Information Security Management Systems (ISMS) based on ISO/IEC 27001:2022. This training and certification give you the formal recognition and proof of knowledge, and the best practices, practical exercises, and case studies which help you to get equipped with real-world expertise. It is the experience and knowledge that you can apply to your day-to-day operations and activities. Here are the three main courses:

#### **ISO 27001:2022 Foundation**

Delivers: Opportunity to understand the fundamental elements and security of an Information Security Management System (ISMS).

This Foundation course will enable you to:

- Understand the different modules of ISMS
- Appreciate policy, procedures and performance measurements
- Relate management commitment, internal audit, management review, and continual improvement

#### **ISO 27001:2022 – Lead Implementer**

Delivers: Opportunity to understand how to securely implement and maintain an ISMS based on the requirements of ISO/IEC 27001:2022.

This Lead Implementer course will empower you with the information security controls and best practices based on a globally accepted framework. Through the exercises and examples, it gives you a perspective and ways to apply the concepts to your real-world system. So, if you are responsible for, or on a team, that is implementing a new or adjusting a current ISMS based on ISO/IEC 27001:2022 this is the training and certification for you. Enhance your career, deepen your knowledge, acquire the tools to enable you to succeed and securely implement/manage your company's ISMS. This Lead Implementer course will enable you to:

- Implement an ISMS based on ISO/IEC 27001:2022 requirements
- Maintain and improve an ISMS based on ISO/IEC 27001:2022 requirements
- Understand effective and necessary controls
- Understand best practices and procedures
- How to apply a framework for implementation and improvement of an ISMS

#### **ISO 27001:2022 – Lead Auditor**

Delivers: Opportunity to plan and carry out an internal or external audit of an ISMS based on ISO/IEC 27001:2022 in compliance with ISO 19011 and ISO/IEC 17021-1.

This Lead Auditor course showcases how to apply what the ISO/IEC 27001:2022 standard tells you to do. Learn skills to enable you to:

- Master audit techniques
- Manage an audit program
- Manage an audit team
- Handle Communication with customers
- Conflict Resolution

These trainings and certifications are for those involved in building, managing, and/or auditing an Information Security Management System (ISMS) based on ISO/IEC 27001.

We have developed the following table to help differentiate and understand the three main courses and their value.

The one that is right for you depends on your role and goals.

Training Course	Why should you take this training & get the certification?	Who benefits from this training and certification?	Self-Paced (On-Demand) materials and videos & certification exam	Live Virtual Instructor + All Self-Paced (On-Demand) materials and videos & certification exam
<b>ISO 27001:2022 Foundation</b> (14 CPD/CPE credits*)	<ul style="list-style-type: none"> <li>To understand fundamental elements of an ISMS</li> <li>Formal recognition &amp; proof of knowledge</li> <li>Add value to your organization</li> <li>Proven best practices</li> </ul>	<ul style="list-style-type: none"> <li>Individuals on ISMS teams.</li> <li>Individuals pursuing a career in security.</li> <li>Individuals seeking ISMS information.</li> </ul>	<b>YES (\$700 USD)</b> Self-Paced (On-Demand) 200+ pages of information, examples, best practices, exercises & quizzes	<b>NO</b> (Live instructor not available for this course.)
<b>ISO 27001:2022 Lead Implementer</b> (31 CPD/CPE credits*)	<ul style="list-style-type: none"> <li>To prepare you to implement an ISMS based on requirements</li> <li>Career advancement</li> <li>Increased earning potential</li> <li>Formal recognition &amp; proof of knowledge, CPD/CPE* credits</li> </ul>	<ul style="list-style-type: none"> <li>Project Managers</li> <li>Consultants &amp; expert advisors</li> <li>Individuals responsible for ISMS conformance, implementation, and/or maintenance.</li> </ul>	<b>YES (\$1,200 USD)</b> Self-Paced (On-Demand) 450+ pages of information, examples, best practices, exercises & quizzes	<b>YES (\$1,800 USD)</b> All Self-Paced materials plus 5 hours of live virtual instructor sessions weekly, for 8 weeks.
<b>ISO 27001:2022 Lead Auditor</b> (31 CPD/CPE credits*)	<ul style="list-style-type: none"> <li>To prepare you to audit an ISMS based on requirements</li> <li>Career advancement/earnings</li> <li>Formal recognition &amp; proof of knowledge, CPD/CPE* credits</li> </ul>	<ul style="list-style-type: none"> <li>Auditors</li> <li>Managers</li> <li>Consultants/advisors</li> <li>Technical experts</li> </ul>	<b>YES (\$1,300 USD)</b> Self-Paced (On-Demand) 450+ pages of information, examples, best practices, exercises & quizzes	<b>YES (\$2,500 USD)</b> All Self-Paced materials plus 5 hours of live virtual instructor sessions weekly, for 8 weeks.

\* Continuing Professional Development (CPD) / Continuing Professional Education (CPE) credits
